DETAILED ACTION

Claim Objections

1. Claim 24 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 23. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

2. Claims 23 and 24 are objected to because of the following informalities:

The recitation of "which selects ones more than the threshold value" recited in claim 23, lines 4-5 appears to be typographical error. It is suggested to change the recitation to -- which selects one or more paths having peak greater than the threshold value --.

The recitation of "the path" recited in claim 23, line 20 is suggested to change to -- the valid path --.

The recitation of "which selects a path more than the threshold value" recited in claim 24, lines 4-5 is suggested to change to -- which selects a path having peak greater more than the threshold value --.

Appropriate correction is required.

Allowable Subject Matter

3. Claims 1-22 are allowed over prior art of record.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. References Kobayakawa et al (6,064,338), Saito et al (US 2001/0014116 A1), Kondo (6,480,523) and Tsutsui et al (5,904,076) are cited because they are pertinent to the CDMA communication system having specific searcher for providing timing information to the fingers of the RAKE receiver. However, none of the cited references teaches or suggests, in combination, the arrangement of the searcher section with specific functions for providing timing as recited, finger section, RAKE synthesizing section and decoding section in order to form a CDMA receiving apparatus as recited in claim 1 and the corresponding method steps of the method claim 15 and variation of elements as recited in claims 23 and 24 and further limitations of the dependent claims 2-14 and 16-22.

4. This application is in condition for allowance except for the above formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
